# RICHARD XU

1738 Spruce St. Berkeley, CA 94709 | 425-623-6872 | richardxu@berkeley.edu
Website: xurichard.github.io | Github: xurichard | Linkedin: richardxu1

## EDUCATION

Intended May 2017 *University of California, Berkeley | Berkeley, CA*

- B.S. Bioengineering and Electrical Engineering and Computer Science, intended honors program
- Current GPA: 3.430

## RELATED CLASSES

CS61A – Intro to Computer Science, CS61BL – Data Structures, CS61C – Machine Structures,
CS195 – Social Implications of Computing, CS97 – Lab Assisting,
Math54 – Linear Algebra and Differential Equations, Math53 – Multivariable Calculus

## RELATED SKILLS

Languages · Java, Python, Javascript, HTML, CSS, C, Matlab, MIPS

Software · Eclipse, node.js, GDB, POV-RAY, Latex, Photoshop

## PROJECTS | TECHNICAL EXPERIENCE

July 26th, 2014 Outside Hacks , *Front-end developer*
· Created an app to track location of user items, friends and concert Venues in real time
· Designed and implemented locations tracking function of app, using Javascript and Google Map's API

October 4th, 2014 Cal Hacks, *Independent developer*
· Created a web application to allow users to perform tasks without exiting current applications
· Created an interface with background applications through the Leap Motion API and Javascript

October 19th, 2014 Play conference Hackathon, *Back-end developer*
· Created an app to gauge sentiment across sources of social media: Facebook, twitter, yelp, etc.
· Created easy to understand metrics using natural language processer and Yelp/Facebook API
· Implemented a simple user interface using Kivy, an open source python library for app development

November 8th, 2014 Space Hackathon, *Front-end developer*
· Created a proof of concept for a bioreactor that could perform experiments remotely in space
· Used the Intel Edison and the IoT cloud service to provide users with a simple interface to interact with

January 2014 - Present Software Research Assistant, *Language and Cognition Laboratory at UC Berkeley*
· Expanded the space of TRPS (Topological Relationship Picture Series) through matrix transformations
· Applying different functions to large sets of data in parallel to view changes in individual languages across large time spans using Apache Spark

January 2014 - Present Software Research Assistant, *Donner - Joint UC Berkeley/Lawrence Berkeley National Laboratory*
· Used CREAL (language specific to this lab) to develop a simulation of organic processes
· Created documentation for CREAL for other nontechnical researchers to understand

## LEADERSHIP EXPERIENCE | EXTRACURRICULARS

August 2014 - present CRRS Staff Assistant, *UC Berkeley Campus Refuse and Recycling Services*
· Created and implemented projects to improve campus recycling and composting
· Coordinated with building directors to implement new procedures

August 2013 - present ReUSE Head of Strategic Planning, *Campus sustainability organization*
· Lead the Strategic Planning Committee i several projects to increase environmental sustainability

August 2013 - present Outreach committee – High School Outreach head, *BMES – Biomedical Engineering Society*
· Lead project to increase awareness and interest in higher education in STEM fields in local schools
· Organized dinner with alumni to connect current students and alumni and professors

August 2013 - present Engineering Library Committee Chair, Engineering Library student committee
· Surveyed different groups of students to create a more inviting and productive environment in the library
